Universal Healthcare Coverage with Patient Choice

Universal healthcare coverage (UHI)

- Healthcare reforms initiated in 2004
- Primary care free of charge for all citizens

✓ 98%¹ population coverage by UHI

System favours patient choice

- Services provided by both public and contracted private hospitals with SSI being the key payor
- Private hospitals are able to charge higher rates than public hospitals, with some payment required from SSI patients
 - SSI reimburses private hospitals using SUT prices² (stable since 2008)
 - Private hospitals have the right to charge +200%³ over and above SUT prices²

- ✓ Patients' choice
- ✓ Partial SSI reimbursements
- ✓ Co-pay up to 200% above SUT prices²

Top-up insurance (since 2014)

- Cheaper form of PMI to cover SSI patients' co-pay costs
- Can only be used at hospitals that signed a contract with SSI
- Top-up PMI is the fastest growing segment of the health insurance market with 2014-17 CAGR of >119%⁴

✓ Attractive funding structures increasing accessibility

2 Clear Leader in Private Hospital Provision

MLP Care is the largest multi-specialty hospital group in Turkey and the only private player with a truly nationwide network

- ✓ National and local leader with a network covering the greatest number of cities
- ✓ 40% of beds located in the attractive Istanbul market
- ✓ MLP Care has the highest number of beds in nearly every city in which they are present

Bed concentration in Istanbul:

- MLP: 40%
- Acibadem: 67%
- Memorial: 34%
- Medicana: 42%

2 Clear Leader in Private Hospital Provision

MoH is investing in the PPP program, but large private players do not expect to see an impact in the near / mid term

Highly illustrative schematic of the Turkish Healthcare Sector

- Private hospital's **target population** is **significantly different** from what the PPP hospitals are expected to attract
- Emergence of large PPP hospitals can **accelerate consolidation** in the industry, resulting in smaller hospitals having just license value
- As such, MLP Care **is expected to be minimally impacted by the MoH's PPP initiative**

PPP success factors

Operational excellence

- City hospitals are **mega health complexes requiring operational excellence** to ensure financial sustainability and top quality
- Right governance system needs to be in place

Healthcare personnel

- MoH needs to **staff** city hospitals with the right quantity and quality of medical staff
- **Some public hospitals** may need **to be closed** and staff re-located
- **Re-location** of medical staff may pose some **risk due to remote location of city hospitals**

High service quality

- MoH needs to **ensure patient demand** through high quality service
- **Significant increase in travel time**, especially for outpatient or unplanned visits may hinder demand

3 Strong Brand Recognition and Unique Business Model Addressing Multiple Price Points

Business model results in a balanced portfolio covering multiple payor types

2017 Revenue Breakup by Payor Type

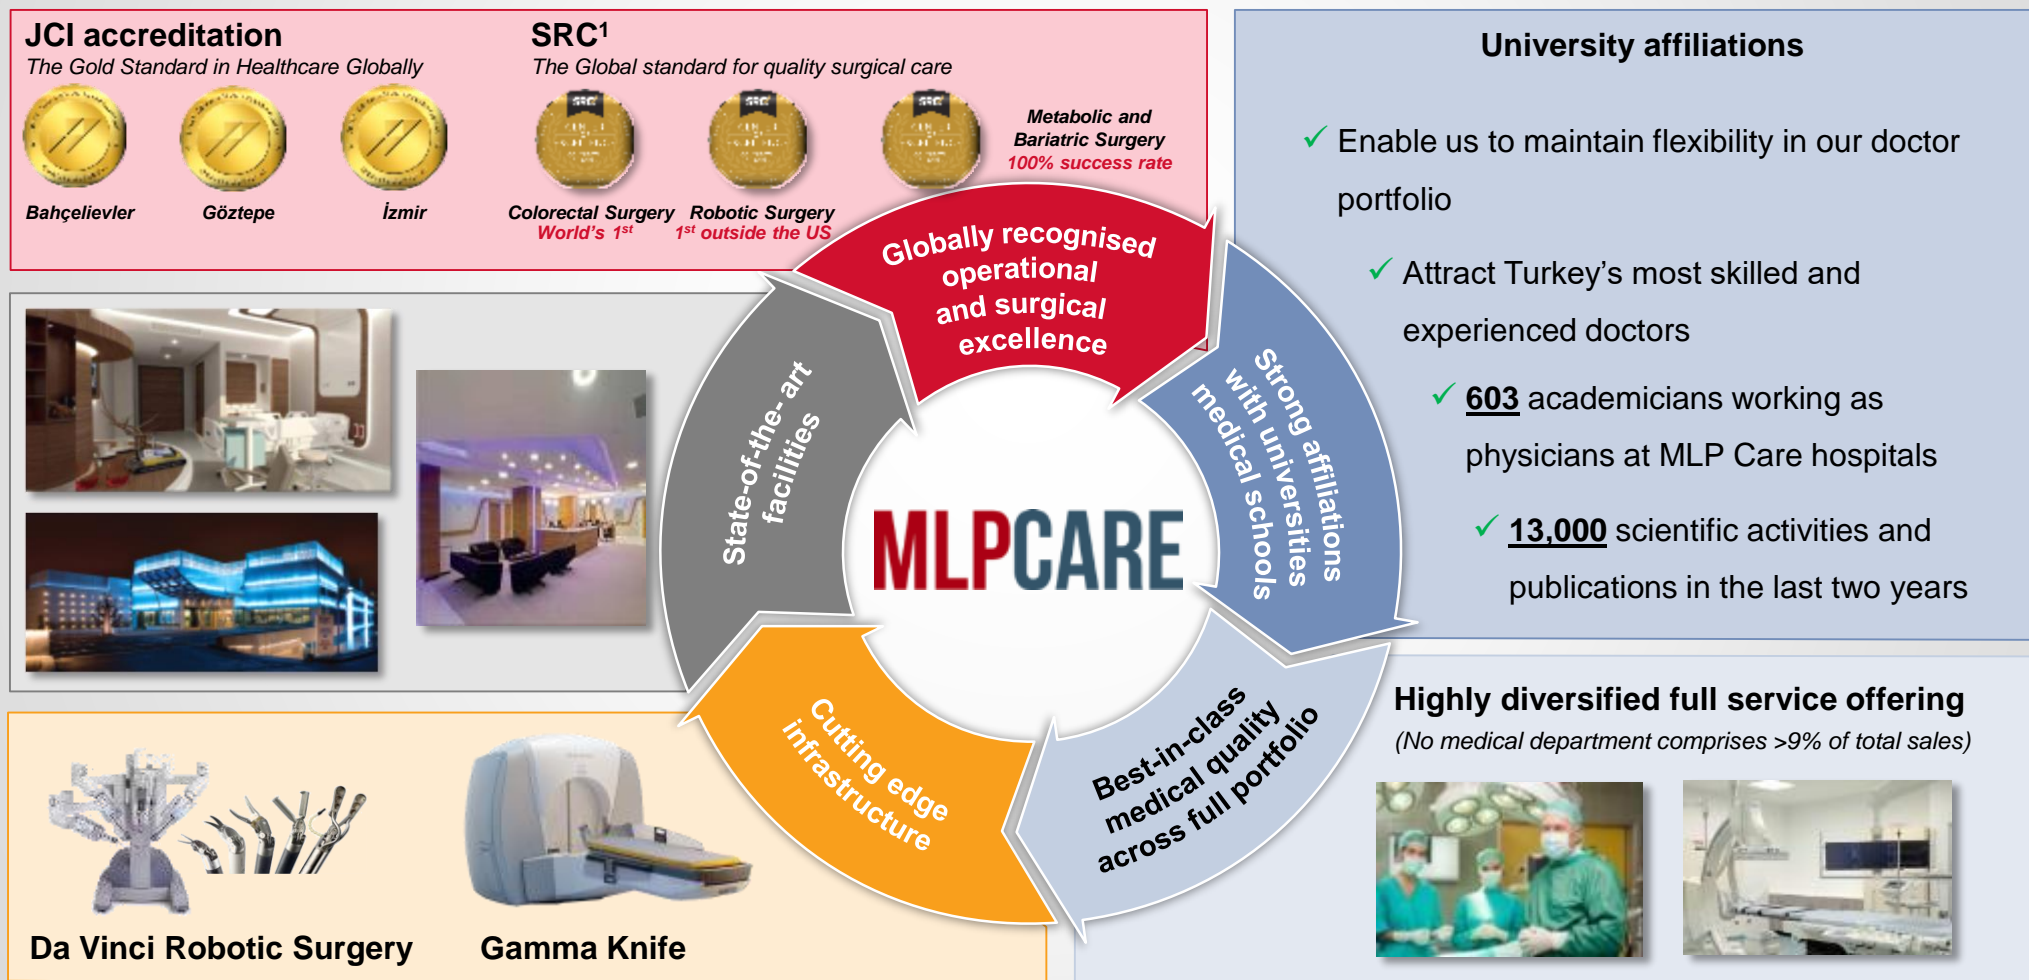

- **SSI Insurance** provides access to the majority of Turkey's population
- **Revenue from PMI** grew by **6X** in the last five years
- **Revenue from Top-up Insurance** grew by more than **2X** in 2017
- **Medical Tourism** growing from a small and sustainable base
