MLP CARE OPENS ITS 31st HOSPITAL, AS IT CELEBRATES ITS 25th ANNIVERSARY IN TURKISH HEALTHCARE

MLP Care, the largest private healthcare service provider in Turkey, announces that it is opening its 31st hospital in the country, located in Mersin.

With an area of 35,000 m², VM Medical Park Mersin Hospital, MLP Care's second hospital in the city and the third in the Mediterranean region, has started admitting patients.

It follows the company's recent opening of its 30th hospital located in Pendik, Istanbul, with both openings taking place as the company celebrates its 25th anniversary in the Turkish healthcare sector. The successful opening of the Mersin hospital completes the company's scheduled openings for 2018.

Dr. Muharrem Usta, Chairman and Chief Executive Officer of MLP Care, said:

"We are delighted to be opening VM Medical Park Mersin, the 31st hospital in our group. This year has been significant in our company's history, following our listing on the Borsa Istanbul and marks our 25th year anniversary in the Turkish healthcare sector.

With world class staff and advanced medical technologies, the VM Medical Park Mersin Hospital will provide the highest quality healthcare services to our patients."

The company's initial public offering on the Borsa İstanbul stock exchange took place in February 2018.
