✓ As FX denominated building rent expenses are fully converted to TL as of October 2018, hard currency rent expenses was shown zero for this analysis.

Financial Update

Trade receivables increased in line with the strong revenue growth leading to lower operating cash flow

✓ Trade receivables grew to TL886m at 30 September 2018 from TL750m at 31 December 2017.

Outlook & Prospects

2018 has been a challenging environment due to currency volatility and increasing inflation.

Our targets are:

Operational targets

- Increase operational excellence and adjust our targets upwards
- Enhance patient satisfaction
- Improve the mix on higher revenue and EBITDA generating procedures
- Continually review every operational step to optimize all business processes and achieve further improvement

Financial targets

- Continue to actively mitigate FX risk by hedging and increasing hard currency revenue and decreasing FX based costs
- Tight controls over costs
- Quick Ramp up of new hospitals

We believe that we can manage the challenging environment with our strengths:

- Experienced management team with track record of success
- Strengthened balance sheet with IPO and hedging
- By far the largest hospital network in Turkey (with 5 university affiliations)

2 Clear Leader in Private Hospital Provision

MoH is investing in the PPP program, but large private players do not expect to see an impact in the near / mid term

Highly illustrative schematic of the Turkish Healthcare Sector

- Private hospital's **target population** is **significantly different** from what the PPP hospitals are expected to attract
- Emergence of large PPP hospitals can **accelerate consolidation** in the industry, resulting in smaller hospitals having just license value
- As such, MLP Care **is expected to be minimally impacted by the MoH's PPP initiative**

PPP success factors

Operational excellence

- City hospitals are **mega health complexes requiring operational excellence** to ensure financial sustainability and top quality
- Right governance system needs to be in place

Healthcare personnel

- MoH needs to **staff** city hospitals with the right quantity and quality of medical staff
- **Some public hospitals** may need **to be closed** and staff re-located
- **Re-location** of medical staff may pose some **risk due to remote location of city hospitals**

High service quality

- MoH needs to **ensure patient demand** through high quality service
- **Significant increase in travel time**, especially for outpatient or unplanned visits may hinder demand
